MD HOSSAIN

IT Support Specialist (L2/L3) | Systems & Network Administrator
Dhaka, Bangladesh | +880 1608 630784 | mdhossain.cloud@gmail.com
Portfolio: mdhossain365.carrd.co | Nationality: Bangladeshi

PROFESSIONAL SUMMARY

Results-driven IT Support Specialist (L1/L2/L3) and Systems/Network Administrator with 8+ years of hands-on experience optimizing enterprise IT operations, multi-site infrastructure, and remote end-user support. Expert in Active Directory (GPO), Microsoft 365 administration, ServiceNow ticketing, and MikroTik network design. Proven track record of maintaining 99.9% system uptime, enforcing strict SLA compliance, and automating IT workflows to enhance organizational productivity.

CORE SKILLS

IT Systems & Administration: Active Directory (GPO, PowerShell Scripting), Microsoft 365 & Outlook Admin, Windows Enterprise, Remote Support, User Onboarding/Offboarding
ITSM & Service Operations: ServiceNow (Incident & Request Management), SLA Compliance, Technical Documentation, IT Asset Management, Vendor Management
Networking & Infrastructure: TCP/IP, LAN/WAN Architecture, MikroTik Routing, GRE & Site-to-Site VPN Tunnels, Switching, VLANs, Wi-Fi, CCNA
Hardware & Security: Hardware Diagnostics & Troubleshooting, IP CCTV Systems / NVR (Multi-site Deployment), Preventive Maintenance

WORK EXPERIENCE

Senior IT Officer | MKR Group Feb 2020 - Present
Dhaka, Bangladesh

- Execute L2/L3 technical support for **150+ users** across 4 regional offices (Dhaka, Chittagong, Khulna, Payra) via **ServiceNow**, maintaining an average SLA compliance rate of 98%+.
- Administer **Microsoft 365** and **Active Directory** environments, managing user provisioning, group permissions, and automated account setups using **PowerShell scripts**.
- Engineer and maintain multi-site enterprise LAN/WAN infrastructure using **MikroTik routers** and site-to-site VPN tunnels, consistently sustaining **99.9% network uptime**.
- Implement security and access policies using **Group Policy Objects (GPO)** to safeguard company data and streamline workstation updates.
- Deploy and maintain **IP CCTV** systems and **NVRs** (**256 cameras, 6 locations**).
- Coordinate with ISPs and vendors to resolve connectivity and infrastructure issues.
- Manage the IT asset inventory covering **desktops, laptops, printers, network equipment and CCTV**, and perform preventive maintenance and system updates to keep equipment reliable.
- Direct IT infrastructure expansions by deploying **workstations, network devices, and IP telephony systems** for newly established regional branches.
- Manage central **IT asset registers**, maintaining accurate documentation for **hardware lifecycles, network topologies, IP allocations, and CCTV infrastructures**.

IT Officer | Alif Embroidery Village Ltd Jul 2018 - Jan 2020
Dhaka, Bangladesh

- Delivered first-line L1/L2 IT support for 250+ employees, efficiently troubleshooting Windows enterprise OS, peripheral hardware, and core office software.
- Managed workstation rollouts, including OS installation, network configuration, antivirus deployment, and user onboarding setup.
- Maintained network stability (LAN/Wi-Fi) and managed asset inventories to minimize system downtime across production facilities.
